Education:

Rizvi College of Arts, Commerce and Science, Mumbai
Bsc in Computer Science

2021-2024
8.4/10 CGPA

Projects:

Login/Signup App

[Github link](#)

- MyProfileApp, developed using React Native for the frontend and Node.js with MongoDB for the backend, displays personal details upon successful authentication.
- The app offers a seamless and intuitive user experience where users can securely create accounts, log in, and access their personal information, with encrypted authentication ensuring data privacy.

Weather web App

[Github link](#)

- WeatherApp is a straightforward web application providing real-time weather updates for global locations, developed with HTML, CSS, and JavaScript for the frontend.
- Powered by Node.js and Express.js on the backend, WeatherApp ensures a seamless user experience by utilizing the OpenWeather API to deliver accurate weather data, including temperature, humidity, wind speed, and conditions.

Online BookStore

[Github link](#)

- Designed and implemented a robust e-commerce platform for an online bookstore using the MEAN stack, showcasing proficiency in MongoDB for database management, Express.js and Node.js for server-side development, and Angular for dynamic client-side interactions.
- Achieved seamless integration of key features, ensuring a user-friendly and efficient online shopping experience.

Technical skills:

Languages: JavaScript, Java, Python

Frontend: HTML, CSS, React, React Native

Backend: Node.js, Express.js

Database: MongoDB

Developer Tools: Postman, VScode, Github
